Mutual respect and a commitment to inclusiveness are crucial to a positive learning environment. In this course, we will honor the diversity of all members of the Rider community by fostering a learning environment that is respectful of other classmates based on their identities and past experiences, including race, ethnicity, national origin, gender, sexuality, age, religion, culture, veteran status, and disability. I encourage any student who has concerns about the climate of this classroom or the behavior of others in the class to discuss matters with the instructor or the chair of the instructor’s department.

Course Description

[Digital Foundations](#) provides an introduction in the use of industry standard tools and methods employed in the field of digital art and design. Basic concepts of composition, form, texture, value, and color in two-dimensional design are explored. A focus will be placed on 2D rendering with contemporary tools, as well as underlying theory and critique.

Course Learning Goals

On successful completion of the course, students will be able to:

1. Demonstrate proficiency in standard digital software and production methods.
 2. Articulate the implications of digital technology as related to concept, design and aesthetic.
 3. Critique and contextualize their own work and the work of others in a contemporary setting.
-

Course Requirements

1. Students will be expected to arrive to class on time, participate in class discussions and workshops, present, discuss, and defend ideas, and complete assignments by the date due. In the event of absence, students are responsible for communicating with the instructor in a timely manner, catching up on material covered in class, and completing any missed assignments.
2. Students should expect to spend a few hours per week outside of class time to complete assignments. Students are strongly encouraged to work consistently throughout the semester. Always take into account lab hours and possible technical problems when planning the time you will spend on assignments.
3. Students are responsible for saving and backing up their work, and are strongly encouraged to utilize multiple backup locations, such as external hard drives and cloud storage services (such as Google Drive, Dropbox, etc.) in addition to personal computers. Because students are expected to routinely back up their files, the loss of data is not considered an acceptable excuse for late or missing work.

Course Materials

1. **Required Software** — Students will use the [Adobe Creative Cloud](#) applications Photoshop, Illustrator, and XD. This software can be accessed through your Rider account — from the [sign-in page](#), first enter *rider.edu* into the email address field. You will then be redirected to a Rider University portal where you can log in using your Rider email address and password. For more information, follow this [Adobe CC Getting Started Guide on Canvas](#). This process will also be covered in our first meeting.
2. **Recommended Textbook** — The following textbook may be useful and is recommended for this course, available through the [Rider bookstore](#):
 - a. [Adobe Illustrator Classroom in a Book](#) (2024 Release) by Brian Wood. Pearson, 2024
3. **Canvas** — Resources such as [class slides](#), [stock media](#), and other materials will be posted in the [Files](#) section. Assignment instructions and submission can be found in the [Assignments](#) section. The [Announcements](#) section will be used to post notifications on weather-related scheduling changes or any other relevant news. Any announcements made will also be copied as a class-wide email.
4. **Royalty-Free Stock Media Websites** — Students will use free services such as [Pexels](#), [Unsplash](#), and [Pixabay](#) to obtain royalty-free images for incorporation in projects.
5. **External Storage** — Highly recommended for storing and transferring files (useful not only for this course). A personal Google account includes 15 GB of free cloud storage. iCloud and Microsoft OneDrive offer 5 GB of free cloud storage. A physical external storage device is also recommended. A 1 TB drive can be a good personal investment for storing files beyond the scope of this course. Keep in mind that these drives may need to be formatted. [View these slides on Canvas for detailed instructions on the formatting process](#).
6. **Sketchbook/Notebook** — Recommended for sketching out concepts, jotting down notes.

Assignments and Grading

Individual students' grades will be determined as a percentage out of the **500 points possible** to be earned on the following assignments:

- **[38%] Design Deliverables – 7 for 190 pts**
 - Students will create a hypothetical brand and spend the semester creating artwork (primarily in Adobe Illustrator) to support their brand. Students will typically generate multiple designs per deliverable, listing pros and cons for each.
- **[18%] Photoshop Assignments – 3 for 90 pts (30 pts / 6% of Semester Grade each)**
 - Students will spend the beginning of the semester practicing essential photo-editing techniques in Adobe Photoshop.
- **[16%] Revisions – 4 of 7 for 80 pts (20 pts / 4% of Semester Grade each)**
 - Students will revise 4 of 7 eligible assignments based on feedback. Students will choose one of the original designs from each assignment to revise.
- **[12%] Final Project: User Experience Prototype – 60 pts**
 - Students will spend the semester working toward creating a prototype of a digital experience representing their brand (such as a website design, app or software interface, game or simulation HUD, etc.) using the Adobe apps.
- **[8%] Critiques – 4 of 7 for 40 pts (10 pts / 2% of Semester Grade each)**
 - Students will share their work at the beginning of each class when an assignment is due, to receive constructive feedback from peers and the instructor.
- **[4%] Attendance (20 pts)**
 - 5 points subtracted for each unexcused absence
 - 1 point subtracted for each unexcused tardiness of 30+ min
- **[4%] Conduct (20 pts)**
 - No submission; assessed at end of semester

Late Work

- All assignments (unless otherwise specified) must be submitted to [Canvas](#) by **5:30 PM** on the date due.
- Assignments turned in **less than one week late** will be subject to a **5% grade penalty**.
- Assignments turned in **more than one week late** will be subject to a **10% grade penalty**.
- Students with **three or more missing assignments** will be subject to an **additional 10% grade penalty** on those assignments each week they are late.
- For students with **fewer than three missing assignments**, the **grade penalty will be capped at 10%**, meaning students can still receive up to 90% credit on any late assignment submitted by the end of the semester.
 - My goal is to give students every opportunity to benefit from coursework. *Please note that late work policies will likely differ in your other courses and are determined by individual instructors.*
- Assignments not turned in at all will receive a grade of 0.
- Students will have **3 “free passes”** for requesting **extensions on assignments and/or missing classes** without penalty. *Extensions may not be longer than one week.*

Extra Credit

- Students may submit additional **revisions** and participate in additional **critiques** beyond what is required for the course, up to a **maximum of 50 pts or 10% extra credit**. **Due by 5:30 PM on Dec. 13.**

[Design Deliverable #1: Brand Identity Overview](#)

10 pts (2% of Semester Grade)

Due Week 3 (Sep. 20)

Instructions

- In a few sentences, **describe your idea for a brand identity**. Your brand could represent a personal portfolio, a side project, or something hypothetical like an imaginary company or invention. Your brand could also represent an idea for an app, game, or other piece of software.
- Over the course of the semester, you'll create artwork supporting this brand, culminating in a concise user experience prototype (design for a website, app, piece of software, game HUD or menu, etc. representing your brand), so choose something you'll enjoy working on.
- Your brand description should make clear what **purpose** the brand serves. If it is a business, what products and/or services does it offer? If it is an idea for an app, game, or other piece of software, what does this software do, and how might it work? If it is a personal portfolio, what type of work will the portfolio feature?
- Your brand description should include **3 adjectives** describing your brand's **style**. Is it "edgy," "reliable," "cutting-edge," "traditional," "geeky," "refined," "luxurious," "spontaneous," etc.?
- Your brand description should specify the **target audience**: is there a primary age range, geographic region, interest or occupation, etc. you are targeting? For a personal portfolio, what types of employers are you looking to appeal to?

Grading Criteria

- **5 pts: Brand Purpose** — The brand's purpose is clearly described in good detail.

Then the dean's office will notify the appropriate faculty member. Incomplete Grades

Students who, as a result of extenuating circumstances, are unable to complete the required work of a course within the term, may request an extension of time from a faculty member. Such extensions of time can be granted only in cases in which illness or another serious emergency has prevented the student from completing the course requirements or from taking a final examination. The request for extension of time must be made prior to the last scheduled class meeting, except in those unusual situations in which prior notification is impossible.

The faculty member shall determine whether to grant the request for a time extension and the type of verification (if any) required to support the request. The faculty member shall specify the time, up to four weeks from the last day of the term, as specified in the academic calendar, by which work must be completed by the student. If the faculty member does agree to the request, the notation “I” (Incomplete) shall be submitted on the grade roll. In those situations where the faculty member has not received a request for an extension of time, the notation “I” (Incomplete) may be submitted on the grade roll by the faculty member when, in his or her judgment, such a determination appears justified. Upon submission of completed required work the faculty member shall submit a Change of Grade form to the Registrar.

Students who, as a result of extenuating circumstances, are unable to submit the completed required work at the end of the four-week period may request an extension of the incomplete grade. The request for an extension of the incomplete must be made prior to the expiration of the four-week period. If the faculty member agrees to the request for an extension of the incomplete, the faculty member shall specify the time, up to a maximum of two weeks from the date of expiration of the four-week period (i.e., six weeks from the last day of the term) by which work must be completed by the student and shall submit an Extension of Incomplete form to the Registrar.

Upon submission of completed required work, the faculty member shall submit a Change of Grade form to the Registrar and assign the course grade. Failure of the Registrar to receive from the faculty member a Change of Grade form or an Extension of Incomplete form at the end of the four-week period, or a Change of Grade form at the end of the six-week period shall result in the automatic assignment of the grade “F,” “Z,” or “U” by the Registrar.

Students who receive an incomplete in a course that is part of a course sequence must obtain permission from the department chairperson to remain enrolled in the next course in the sequence or they will be removed from that next course.

Students may drop courses through the second week of the regular semester at their own discretion. In such cases, the courses are deleted from the student’s record. After the second week of the semester, a withdrawal from the course is necessary and a ‘W’ is recorded on the transcript.

Students may withdraw from courses and receive a grade of ‘W’ during the third through tenth weeks of the semester. The student’s academic advisor and financial aid counselor will be notified of class withdrawals by email.
